

## TEST SCRIPT

- These are the tests I've been running so far:

### Web Version

- Registering a teacher:
  - Registering normally a teacher filling all fields.
  - Registering a teacher but not filling all fields.
  - Registering a teacher but filling no fields.
  - Registering a teacher using special characters.
- Searching a teacher:
  - Searching normally for a teacher filling all fields.
  - Searching for a teacher but not filling all fields.
  - Searching for a teacher but filling no fields.
  - Searching for a teacher using special characters.

### Mobile Version

- Registering a teacher:
  - Registering normally a teacher filling all fields.
  - Registering a teacher but not filling all fields.
  - Registering a teacher but filling no fields.
  - Registering a teacher using special characters.
- Searching a teacher:
  - Searching normally for a teacher filling all fields.
  - Searching for a teacher but not filling all fields.
  - Searching for a teacher but filling no fields.
  - Searching for a teacher using special characters.

**\*\*All tests will be automated but I'm actually still working on it, it's a work in progress\*\* ;)**
